

# APACC 2026

11<sup>TH</sup> ASIA-PACIFIC  
AIDS & CO-INFECTIONS  
CONFERENCE

## IN-PERSON CONFERENCE

18-20 JUNE 2026  
CHIBA, JAPAN

## JOIN 11<sup>TH</sup> APACC IN JAPAN

Over the years, enormous progress has been made in the fight against HIV and co-infections. All stakeholders (community representatives, academic researchers, healthcare providers, the pharmaceutical industry, and policymakers) have contributed greatly to equipping the medical community with the best medications and expertise to optimally care for people living with HIV. However, international platforms for scientific exchange are not always accessible to medical professionals worldwide due to budget and travel restrictions. In addition, most major conferences tend to overlook local and regional issues. In particular, the Asian medical community in this field of research currently has very few platforms that address the needs of HIV healthcare professionals in the region.

The **Asia-Pacific AIDS & Co-Infections Conference (APACC)** provides a much-needed scientific platform that focuses on the developments, challenges, and needs in the Asia-Pacific region. Researchers have the opportunity to present and discuss the latest findings and are offered opportunities for interaction, networking, and building collaborations. Top experts integrate science and clinical practice through state-of-the-art lectures, clinical case discussions, roundtable discussions, and debates in order to reach consensus on providing the best possible care for people living with HIV and other infectious diseases.

Join us for the **11<sup>th</sup> APACC** in Chiba, Japan, from 18-20 June 2026!

### CONFERENCE CHAIRS

**Junko Tanuma, MD, PhD**  
International University of  
Health and Welfare, Chiba,  
Japan

**Rayner Kay Jin Tan, PhD**  
Saw Swee Hock School  
Of Public Health, National  
University Of Singapore,  
Singapore

### LOCAL CHAIR

**Toshibumi Taniguchi, MD, PhD**  
Chiba University Hospital,  
Japan

### LOCAL COMMUNITY CHAIR

**Kota Iwahashi, MPH**  
AKTA,  
Japan

**Register Today**

# ABSTRACT SUBMISSION

APACC provides a platform for investigators in the Asia-Pacific region to present their latest research or share their experiences in the field of HIV and co-infections!

Overarching Abstract Topics:

- Basic Science
- Clinical Science
- Prevention Science
- Implementation Science
- Co-Infections Including Viral Hepatitis

**DEADLINE: 13 FEBRUARY 2026 23:59 JST**

APACC 2026 welcomes two types of abstracts:

**“Lessons learned” abstracts:** What worked and what did not work? Share your experiences and exchange ideas with a multidisciplinary audience. “Lessons learned abstracts” can be submitted in a descriptive (non-structured) format.

**“Research” abstracts:** Present the latest results from your study or research and discuss the findings with an expert audience.

APACC accepts encore and industry-submitted abstracts as long as the research is focused on the Asia-Pacific and has new data at the time of the conference.

Early-Career Investigators (ECI) / Regular Delegates from a Resource-Limited Setting (RLS) with an accepted abstract enjoy a discounted registration fee.

Abstract submitters are strongly encouraged to use *person-first language* in their abstracts.

Abstract presenters are expected to attend the conference in person to present their abstracts.
